Meeting Announcements

LEARN ABOUT THE OSU AIRPORT PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

The Ohio State University Airport

Please join The Ohio State University Airport at a public meeting/open house to learn more about the Federal Aviation Regulations (FAR) Part 150 Noise and Land Use Compatibility Study being conducted by the University. Consultants and Airport staff will be on hand to discuss the progress of the Part 150 Study as well as listen to any concerns you may have regarding aircraft noise.

PUBLIC MEETING / OPEN HOUSE

Thursday, April 24th

7 to 9 p.m. – presentation at 7:30 p.m.

OSU Airport Hangar 1

(entrance next to Barnstormer Restaurant)

2160 West Case Road

Columbus, Ohio 43235

Residents will learn of the noise study process, the technical analyses completed to date and will be able to review draft Day-Night Average Sound Level (DNL) contours for the Airport. These noise contour maps are developed based on aircraft operations occurring at the Airport today, as well as predictions on operations at least five and 20 years in the future. Based on public input and additional technical analysis, the noise exposure maps will be further refined and submitted to The Ohio State University and the FAA for acceptance. This will be followed by Phase 2 of the Part 150 Study, when potential noise compatibility alternatives will be evaluated.

LEARN ABOUT THE OSU AIRPORT PART 150 NOISE AND LAND USE COMPATIBILITY STUDY

The Ohio State University Airport

Please join The Ohio State University Airport at a public meeting/open house to learn more about the Federal Aviation Regulations (FAR) Part 150 Noise and Land Use Compatibility Study being conducted by the University.

PUBLIC MEETING / OPEN HOUSE

Thursday, Nov. 6th

7 to 9 p.m. – presentation at 7:30 p.m.

OSU Airport Hangar 1

(entrance next to Barnstormers Restaurant)

2160 West Case Road

Columbus, Ohio 43235

Residents will be able to review and provide comment on the 2008 and 2013 Noise Exposure Maps for the Airport's Part 150 Study. The study team will outline the current Noise Abatement Guidelines at the Airport and discuss general air traffic control procedures that have been implemented at other airports across the country. The team will also discuss potential land use measures and how they can be implemented to reduce non-compatible land uses around an airport. Additional suggestions will be sought from the public.
