

SURVEY OF SERVICES

Midwest ATC Service excels at providing air traffic control services that reach new heights in safety and customer satisfaction. We have found that comments and feedback from the flying community, which utilize the airports we serve, are invaluable to our facility evaluation process, permitting us to recognize excellent individual performance and to address areas where improvement may be necessary.

We always welcome any opinions, suggestions, or observations you may have on ways we may be able to enhance the operational efficiency of our facility. We appreciate you taking a moment to complete this survey. Replies may be returned to the control tower or mailed to the address below.

1. Controllers conduct themselves in a courteous and professional manner.

Disagree	1	2	3	4	5	6	7	8	9	10	Agree
----------	---	---	---	---	---	---	---	---	---	----	-------
